NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Cash Plus, Inc. (the Company) was first incorporated in the State of Delaware on December 14, 1984. The Company was later re-incorporated in California on April 16, 1985.

The Company's business is to sell individual franchises for check cashing; payday advances along with other related services and development rights for multiple franchises in specific geographic areas.

The Company sells franchises throughout the United States, however, sales to the West Coast represents the major portion of their business.

Revenue Recognition

The Company receives an initial franchise fee from each franchise sale and continuing royalty fees from operating franchises over the life of the franchise. The Company recognizes initial franchise fees as revenue upon acceptance of the contract and when substantial performance has occurred. The estimated costs of providing the initial services to franchises are accrued when the revenue is recognized. Continuing royalty fees are considered earned when they become due from the franchisee.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all short-term investments with an original maturity of three months or less to be cash equivalents. The federal government only insures deposits up to \$100,000 per institution. As of September 30, 2004, the Company had deposits in excess of federally insured limits of \$36,444.

Property and Equipment

Property and equipment are carried at cost. Depreciation of property and equipment is accounted for on the straight-line method for financial reporting purposes over the estimated useful lives of the assets, which range from 5 to 7 years. Depreciation expense for the years ended September 30, 2004 and 2003 amounted to \$16,690 and \$16,295 respectively.

For federal income tax purposes, depreciation is computed using the modified accelerated cost recovery system.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Organization Costs

Organization costs are amortized on a straight-line basis over 5 years. Organization costs were fully amortized at September 30, 2001.

Advertising Cost

All costs associated with advertising and promotion are expensed in the year incurred.

Income Tax

Income taxes have been provided using the liability method in accordance with Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes. Under this method, deferred tax assets and liabilities are determined based on differences between financial reporting and tax bases of assets and liabilities and are measured using enacted tax rates and laws that will be in effect when the differences are expected to reverse. The provision for income tax represents the total of income tax paid or payable for the current year, plus the change in deferred tax during the year.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

NOTE 2 – ACCOUNTS RECEIVABLE

Accounts receivable represents amounts due from franchisees under contract. The amounts consists of:

	2004	2003
Accounts Receivable	\$ 99,471	\$ 109,606
Less: Allowance for doubtful accounts	(15,000)	(15,000)
Accounts receivable - net	\$ 84,471	\$ 94,606

The Company periodically reviews its allowance for doubtful accounts and makes adjustments based on its history of collections. The Company uses the direct write-off method when an account has been determined to be completely uncollectible.

NOTE 3 – INCOME TAX

The provision for income tax consists of the following at September 30, 2004 and 2003:

	2004		2003
Current federal income tax	\$	0	\$ 10,801
Current state income tax		800	 6,005
	\$	800	\$ 16,806

NOTE 4 - CAPITAL LEASES PAYABLE

The following is a list of the Company's capital leases payable at September 30, 2004 and 2003:

	2004		2003
